

# Avaya Cloud Office® Rooms with CU360

Avaya Cloud Office Rooms transforms your meeting areas into dynamic video conferencing destinations. Using Avaya's intuitive CU360 collaboration unit, you get an immersive meeting experience, yet one that is simple, from effortless setup to touch-controls to manage your meeting. Walk into any room and easily launch your video meeting with a single touch. Share presentations, documents, and other content wirelessly from your laptop. With Microsoft and Google Calendar integrations it is easy to get everyone together.

## Make any room a video conference room

Avaya Cloud Office Rooms brings a simple and intuitive video experience to any size conference room. Connect everyone together seamlessly, wherever they are.

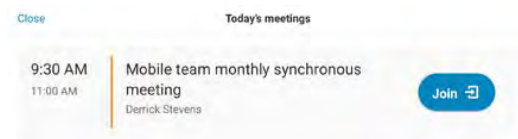

## Built For The Way Your Work

Run your video conference using intuitive touch commands. Easily control the Avaya CU360 camera, speakers, and video. Send an invitation to any participant without having to switch apps or devices.

## Easy to deploy and manage

Simple IT management and easy installation minimizes setup costs and speeds ROI.

## Key features

### One-touch meeting initiation

Start, join, and manage meetings with one touch. Intuitive one-time setup means no time lost trying to make room equipment work.

### Dual screen support

See shared content on one screen and video meeting participants on a second screen so you can engage and interact with meeting participants while reviewing shared content.

### Calendar integrations

Integrate a room's meeting schedule with both the Microsoft or Google calendaring system to enable participants to quickly join a scheduled in-room meeting and eliminate scheduling conflicts.

### Monitor and manage rooms at scale

The admin dashboard provides real-time information and manages reports of room usage, meetings, and devices.

**Avaya Cloud Office Rooms with CU360**

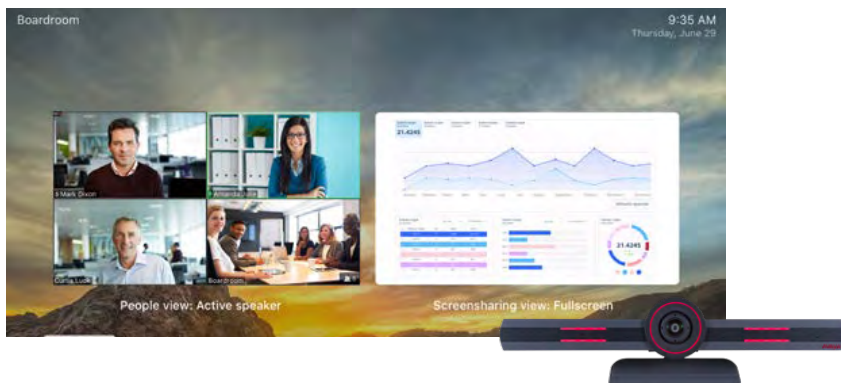

- Conference rooms
- Huddle rooms
- Executive offices
- Training rooms

### Wireless screen sharing and projection

Share screen content during video meetings wirelessly and project from your laptop to the in-room display without fumbling for cables, dongles, or remotes.

### Consistent and unified experience

Avaya Cloud Office Rooms users enjoy a rich and immersive meeting experience that is seamless across Avaya Cloud Office Video and Team Messaging.

### Invite participants during meeting

Invite Avaya Cloud Office contacts from the Rooms controller.

### Layout control for multiple displays

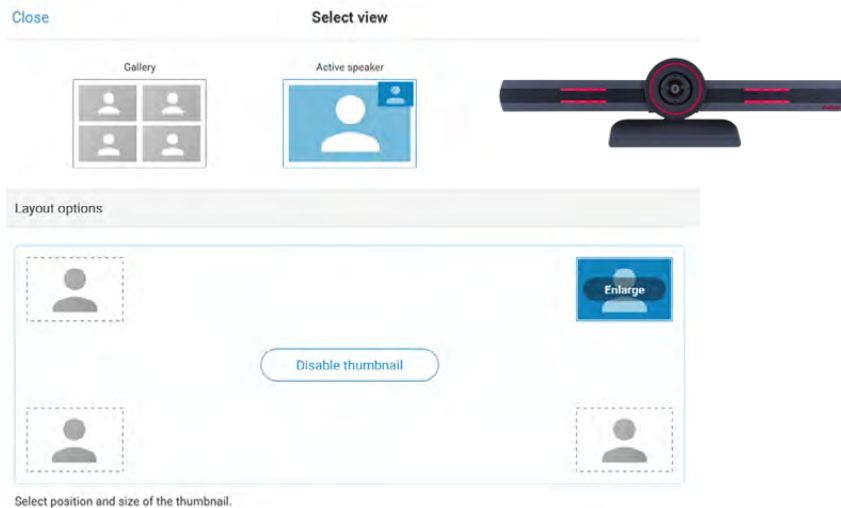

The configurable display can be switched among content, active speaker, and gallery view.

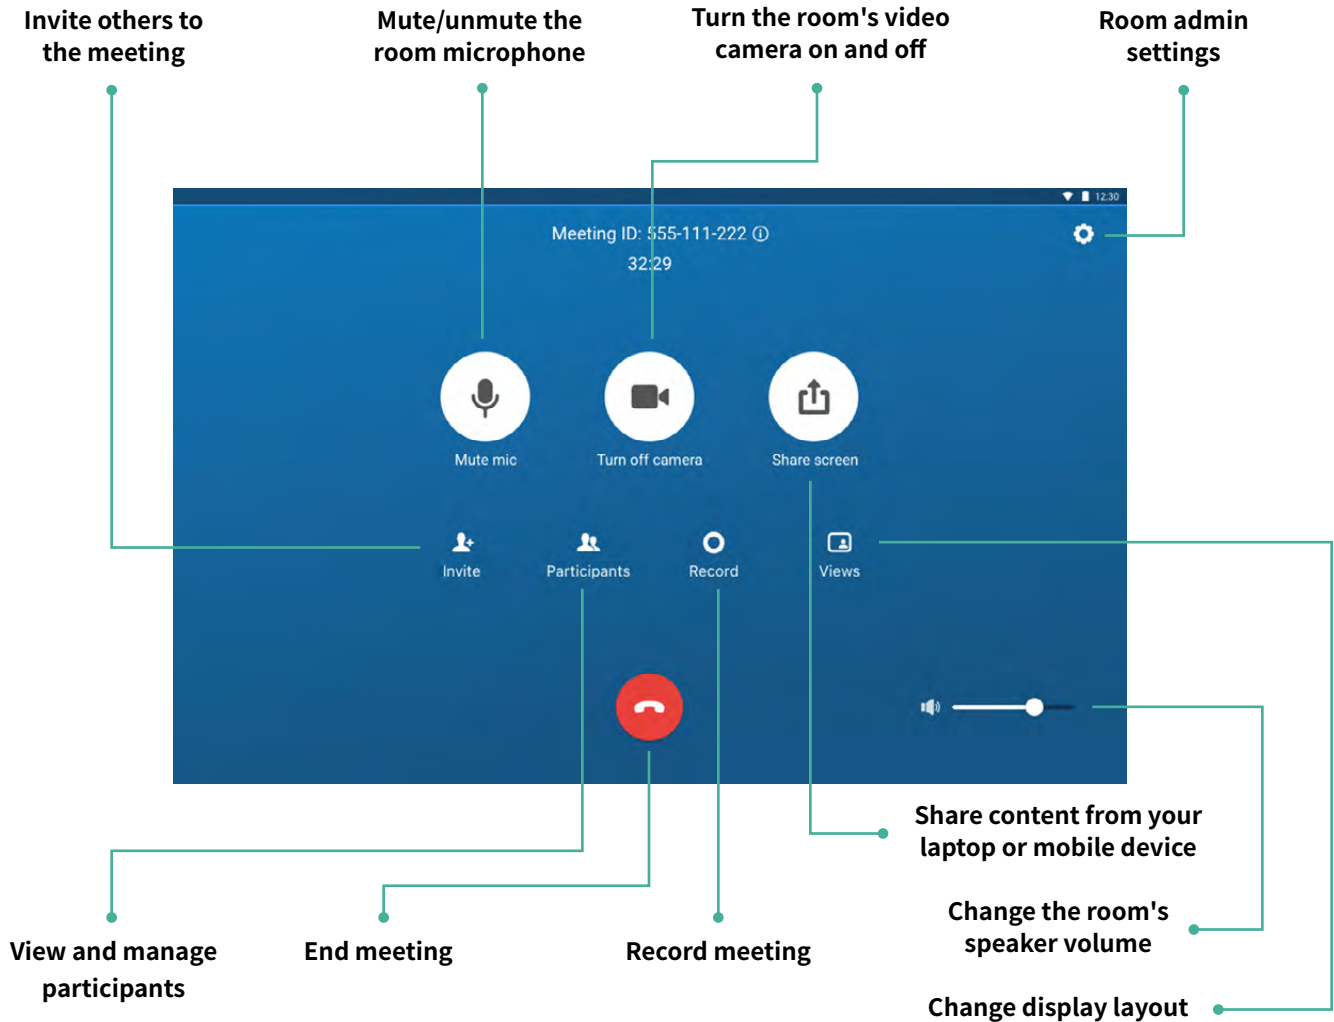

### Direct share

Share your screen to the monitor in the conference room and to remote attendees for a seamless sharing experience.

### Graceful recovery from network disconnectivity

When network connectivity issues interrupt your meeting, the host and controller are automatically joined once again when connectivity is restored.
