

A Home Court Advantage—Even on the Road

The National Association of Basketball Coaches Takes its Plug-and-Play Mobile Office Anywhere, thanks to the Cloud

In March 2018, thousands of basketball fans will flock to San Antonio to see a new college champion crowned. While the “madness” takes place in the Alamodome, the National Association of Basketball Coaches (NABC) holds its annual convention in conjunction with the 2018 NCAA Division I Men’s Basketball Championship Tournament.

The event, the biggest of the year for the NABC, brings together approximately 3,000 coaches for professional development, networking, a vendor expo, and of course, a chance to see the best-of-the-best in college basketball vie for the national title.

To pull off the event smoothly, Kansas City-based NABC must take its show on the road each year, setting up a mobile office at the convention center.

Challenges

- For its annual convention, NABC's mobile command center must mirror its home-office capabilities.
- Event setup previously took two days with an on-premise solution

"We bring our entire office and staff onsite for two weeks," says Stephanie Whitcher, CFO, NABC. "Executing a seamless event depends on having all the same capabilities as our home office."

A Plug-and-Play Mobile Command Center

For six consecutive years, the NABC has teamed with Allegiant USA and Avaya for its Mobile Command Center to run on the Powered by Avaya IP Office™ cloud platform. From the convention center to the hotel, team members communicate via secure telephony, messaging, conferencing, video, and unified communications—helping them coordinate the many logistics of an event of this scale.

"Avaya offers a complete feature set to meet NABC's collaboration needs, from connecting its disparate team on a day-to-day basis to keeping the team in constant contact during the convention," says Bryan Dancer, President & CEO of Allegiant.

This year, NABC's on-the-go office is even more flexible. With its entire infrastructure hosted in the cloud in Allegiant's data center, the association has seamless integration between premises-based and cloud-delivered services. In effect, NABC has a home court advantage, even on the road.

"Our annual convention, in conjunction with the NCAA Men's Final Four, is our marquee event every year," Whitcher says. "The ability to *move* our office communications anywhere allows us to hit the ground running when we arrive on site."

“Our annual convention, in conjunction with the NCAA Men’s Final Four, is our marquee event every year. The ability to plug in our office communications anywhere allows us to hit the ground running when we arrive on site.”

– Stephanie Whitcher, CFO, NABC

Value Created

- With the entire solution in the cloud, communications are now plug and play when the staff arrives on site.
- From the convention center to the hotel, NABC team members can be reached on their regular office numbers.
- The cloud keeps the NABC team working and in touch even if they need to relocate unexpectedly.

In addition to IP Office, the team relies on Avaya one-X® Communicator, a unified communications client that gives users simple, intuitive access to their everyday communications tools from any web browser.

The NABC also enjoys greater peace of mind that, with a cloud solution, it can stay connected in the unforeseen event that it needs to evacuate its home office or event facilities. The team could quickly set up its “office-in-a-box” at another site. Having SIP technology in place further reinforces reliability and redundancy.

A Slam Dunk with Coaches

For the event, NABC and Allegiant set up the Mobile Command Center inside the convention center.

Prior to moving to the cloud, it required a couple of days to configure the on-premises infrastructure for each annual event. Now, setup takes just minutes. Plus, team members keep the same phone numbers, ensuring that colleagues inside and outside NABC can reach them anywhere easily.

Ultimately, the ability to stay engaged simplifies the annual convention and helps ensure a smoother experience for coaches and vendors.

“We get rave reviews for our event each year,” says Jim Haney, Executive Director of NABC. “It wouldn’t be possible without the help of our mobile infrastructure.”

“Avaya offers a complete feature set to meet NABC’s collaboration needs, from connecting its disparate team on a day-to-day basis to keeping the team in constant contact during the convention.”

– Bryan Dancer, President & CEO of Allegiant

About the National Association of Basketball Coaches

Founded in 1927 by Forrest “Phog” Allen, the formation of the NABC began as an emergency measure for the presentation of a united opinion the Joint Basketball Rules Committee, then the central governing authority of the game, announced without notice that it had adopted a change in the rules which virtually eliminated the dribble. Allen, a student of basketball founder James Naismith, organized coaches to take a stand in a nationwide protest which successfully postponed the adoption of the rule change for one year. This marked the beginning of this collective group of coaches to serve as Guardians of the Game.

About Avaya

Businesses are built on the experiences they provide and every day millions of those experiences are built by Avaya (NYSE:AVYA). For over one hundred years, we’ve enabled organizations around the globe to win—by creating intelligent communications experiences for customers and employees. Avaya builds open, converged and innovative solutions to enhance and simplify communications and collaboration—in the cloud, on premise, or a hybrid of both. To grow your business, we’re committed to innovation, partnership, and a relentless focus on what’s next. We’re the technology company you trust to help you deliver Experiences that Matter.
